Corporate Sales & Discount Policy 2026

Trig Corp - Sales Governance and Compliance Framework

This document establishes the binding framework for deal negotiations, discounting authority, and legal compliance within Trig Corp. All Account Executives and Sales personnel must strictly adhere to these policies.

1. Deal Negotiation & Discounting Rules

To maintain profitability and standardized pricing across our B2B SaaS offerings, the following discounting matrix is enforced immediately.

Rule 1 (CRITICAL): Discount Authority Matrix

- **Tier 1 - Autonomous Discounting:** Account Executives may offer up to a **10% discount** autonomously without prior approval.
- **Tier 2 - Manager Approval:** Any requested discount between **11% and 20%** requires documented Manager approval before being presented to the prospect.
- **Tier 3 - VP Override:** Any requested discount **exceeding 20%** is strictly prohibited under standard operations and requires immediate routing to the VP of Sales for an executive override.

2. Legal Review Mandates

Risk mitigation is critical for enterprise engagements. Contractual reviews must follow the threshold below:

- **Rule 2:** Deals with an Annual Contract Value (ACV) or Total Contract Value (TCV) **over $100,000** require a mandatory Legal Department review of the Master Services Agreement (MSA) prior to signature.

3. Market Compliance & Restricted Entities

Trig Corp strictly monitors conflicts of interest and intellectual property exposure.

- **Rule 3:** No contracts can be signed with companies currently placed on the "Restricted Competitor List." Active examples include, but are not limited to:
  - GlobalTech
  - DataSync

Failure to comply with these directives will result in deal rejection during the Policy Audit stage.
