

# Organization & Hierarchy Overview

## Trig Corp - Structure and Technology Matrix

This document provides an overview of Trig Corp's corporate structure, market positioning, and core operational technology stack to facilitate smooth internal operations and accurate AI routing.

### 1. Executive Leadership & Structure

#### VP of Sales: Sarah Jenkins

Sarah Jenkins oversees all revenue-generating operations. She is the designated final approver for high-risk deals, executive escalations, and discount overrides exceeding the 20% standard threshold.

### 2. Market Positioning

Trig Corp specializes in B2B SaaS solutions tailored for complex, high-compliance industries. Our primary Target Market sectors are:

- **Enterprise FinTech:** Financial institutions requiring robust data security and transaction processing capabilities.
- **Healthcare:** Medical networks and providers requiring HIPAA-compliant data management.
- **Logistics:** Global supply chain operators requiring real-time tracking and resource planning.

### 3. Core Technology Infrastructure

To maintain operational efficiency and seamless internal collaboration, Trig Corp utilizes the following standardized platforms:

- **Primary CRM: Zoho CRM**

*Function:* Central repository for all customer data, pipeline tracking, revenue forecasting, and Deal Stage management.

- **Communication Hub: Slack**

*Function:* Primary platform for asynchronous internal communication, deal approvals, cross-departmental coordination, and automated CRM alerts.
